Gist: This DLC is not necessary but could be useful\forgiving on a first play through. It's one of 2 fluff DLC in the 29 "Collection" bundle.

Main: This DLC includes 3 of each specific CC (Crowd Control) counter item. (minus hate drink) You are given these at the beginning of the game or when you activate the dlc.

The CC counter items gradually becoming available for purchase at the shop when you are introduced to a mission that debuts one of the CC mechanics.

Some CC's are debilitating effects for 3 turns, others a permanent until the match is over.

Going into a mission and being afflicted by CC 'could' lead to a game over in a drawnout and painful manner if lacking the counter, dispell, or immunity through Party Wide Leader effects\Discs.

Panacea and variants (cure-all) becomes available to craft\buy as progress is made.

Opinion:

If you feel like supporting ifi, CompileHeart & Co. Get it with the bundle.

Alone, it doesn't add to the game as it's safety net dlc, fluff. With the bundle... it's there.
